Re: Docket ID No. NRC-2012-0246
December 8, 2013

Dear NRC,
I would like the following to be considered as my comments on the
GEIS/Waste Confidence Plan:

Please add a scenario in which *there is no safe way to store nuclear waste*.
If this scenario is added to the plan, it would allow for the possibility of
needing to wean our country from using nuclear fuel and work toward a less
potentially dangerous substance for our energy needs. Considering the
long-term effects that nuclear waste can have on the environment and
human health and to be fair to the American people, we should propose this
as an option.

Thank you,
Anna Baker
