SUBJECT: ORDER REVOKING LICENSE

Dear Mr. Watson:

The Nuclear Regulatory Commission (NRC) has issued an order revoking NRC license number 42-29407-01 issued to Rone Engineering Services, Ltd. because of failure to pay annual fees (enclosed). This letter is an attempt to resolve the payment issue and status of the license. Please contact Jawanza Gibbs-Nicholson at 240-718-8670 (jawanza.gibbs-nicholson@nrc.gov) to obtain the exact amount owed and to coordinate payment. The following actions are being requested from you.

1. If Rone Engineering Services, Ltd. desires to keep the NRC license active, proceed to pay the annual fee by contacting Ms. Jawanza Gibbs-Nicholson. If your company qualifies as a small business entity, you can submit NRC Form 526 (enclosed) and send a reduced annual fee payment.
2. If Rone Engineering Services, Ltd. desires to terminate NRC license 42-29407-01, your company will still need to pay the annual fee, and in addition will need to submit NRC Form 314 (enclosed) including gauge disposal/transfer information, and copy of your most current Agreement State radioactive materials license. The NRC Form 314 and supporting documents can be scanned into a pdf file and return to me by reply email to robertoj.torres@nrc.gov.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosures will be available electronically for public inspection in the NRC Public Document Room or from the NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html>.

Thank you for your cooperation.

Sincerely,

A handwritten signature in blue ink, appearing to read "Roberto J. Torres".

Docket No. 030-38371
License No. 42-29407-01)

ORDER REVOKING LICENSE WITHIN 20 DAYS BASED ON
NONPAYMENT OF LICENSE FEES

I

Rone Engineering Services, LTD (Licensee) is the holder of Materials License No. 42-29407-01, issued by the Nuclear Regulatory Commission (NRC or Commission) pursuant to the Atomic Energy Act of 1954, as amended, that authorizes the activities stated therein. The license has an expiration date of December 31, 2020.

II

Pursuant to 10 CFR 171.16, the Licensee is required to pay an annual fee for this license. The Licensee's annual fee for License No. 42-29407-01 for Fiscal Year 2013, as set forth in fee category 3P of 10 CFR 171.16(d), is \$4,900. In accordance with 10 CFR Part 15, the Licensee was sent an original invoice dated December 5, 2012, and a second notice dated January 9, 2013, requesting payment.

The second notice of payment due specifically informed the Licensee that nonpayment of the fee may result in the suspension or revocation of the license in accordance with the enforcement provisions of the Commission's regulations, namely, 10 CFR 171.23. To date, the annual fee(s) have not been paid as required by 10 CFR Part 171. Pursuant to this Order if the Licensee does not pay all debts within 20 days from the date of this Order, the license will be revoked by the terms of this Order and the Licensee will, in the future, not be able to operate under License No. 42-29407-01. If the former Licensee wants to resume operations after revocation of the license, the former Licensee will have to pay all debts to NRC and apply for and be issued a new license.

iii

I have concluded that the Licensee has violated NRC requirements concerning the payment of annual fees. Therefore, pursuant to Sections 81, 161b, 161c, 161i, 161o, 182, and 186 of the Atomic Energy Act of 1954, as amended, and the Commission's regulations in 10 CFR 2.202, 170.41, 171.23, and 10 CFR Part 30, IT IS HEREBY ORDERED THAT:

- A. License No. 42-29407-01 will be revoked, effective 20 days from the date of this Order, if, within this 20-day period, the Licensee does not pay all debts due to NRC. After license revocation, the license remains in effect, pursuant to 10 CFR 30.36, with respect to the possession, transfer, and storage of licensed nuclear material remaining in the Licensee's possession, as contamination or in other forms, until the Commission notifies the Licensee in writing that the license is terminated.

- B. From the date of revocation until notified by the Commission in writing that the license is terminated the Licensee shall:
1. restrict activity involving licensed nuclear material to decommissioning and safe, secure storage or transfer of material; and
 2. continue to control entry into restricted areas until the Licensee has determined and NRC has confirmed that such areas are suitable for release in accordance with NRC requirements.
- C. Unless full payment is made, the Licensee shall arrange for disposal or transfer to an authorized recipient of any licensed nuclear material acquired or possessed under the authority of License No. 42-29407-01 and shall take all actions required by 10 CFR 30.36.
- D. Within 5 days after disposal of the material, the Licensee shall notify, in writing, the Director, Division of Nuclear Materials Safety, for NRC Region IV, at 1600 East Lamar Blvd., Arlington, TX 76011-4511, of the disposition of all licensed nuclear material acquired or possessed under the authority of License No. 42-29407-01, including in the written notice details as to how, where, and when disposition of the material took place.
- E. No later than the date of revocation, if the Licensee manufactures, distributes, or provides services to other licensees, the Licensee must notify, in writing, each customer or client that authorization to provide any of these services has been suspended. .

Furthermore, the Licensee must notify its customers and clients that they may need to amend their licenses to be in compliance with NRC requirements if their license specifically states reliance on the service of the Licensee. The Licensee must provide the Director, Division of Nuclear Materials Safety, for NRC Region IV, at 1600 East Lamar Blvd., Arlington, TX 76011-4511, evidence of the notification and a list of customers or clients notified.

- F. Unless the Licensee is required to submit a decommissioning plan, within 60 days from the date of revocation, the Licensee shall begin decommissioning its site, or any separate building or outdoor area that contains residual radioactivity, so that the building or outdoor area is suitable for release in accordance with NRC requirements. Should the Licensee be required to submit a decommissioning plan, it should consult 10 CFR 30.36, for specific requirements applying to the submittal and implementation of such a plan.
- G. No later than the date of revocation, the Licensee shall submit a written report to the Director, Division of Nuclear Materials Safety, for NRC Region IV, 1600 East Lamar Blvd., Arlington, TX 76011-4511, that includes: (1) a listing of all materials disposed of, transferred, or still in the possession of the Licensee, (2) a description of the conditions of storage of retained material and actions being taken to control access to the material, and (3) for any material not disposed of or transferred, a description of the actions taken to attempt to dispose of or transfer the material and why those actions were unsuccessful.
- H. The license shall be terminated upon satisfaction of the requirements of 10 CFR 30.36.

- I. After the license is revoked, the former Licensee may not resume previously-licensed operations until:
 1. the former Licensee has applied for and been issued a new license under 10 CFR Part 30; and
 2. all debts to NRC, including the fee for the new license, have been paid in full.

The Chief Financial Officer may relax or rescind, in writing, any of the above conditions upon a showing by the Licensee of good cause. A request for modification of the above conditions shall be submitted to the Chief Financial Officer, with a copy to the Director, Division of Nuclear Materials Safety, NRC Region IV, in writing and under oath or affirmation and must be received within 20 days from the date of this Order.

IV

In accordance with 10 CFR 2.202, the Licensee must, and any other person adversely affected by this Order may, submit an answer to this Order, within 20 days of its issuance. The answer shall be in writing and under oath or affirmation, and shall specifically admit or deny each allegation or charge made in this Order. The answer shall set forth the matters of fact and law on which the Licensee or other person adversely affected relies and the reasons as to why this Order should not have been issued. Any answer shall be submitted to the Secretary, U.S. Nuclear Regulatory Commission, ATTN: Chief, Rulemakings and Adjudications Staff, Washington, DC 20555.

Copies shall also be sent to the Chief Financial Officer, U.S. Nuclear Regulatory Commission, Washington, DC 20555; the Assistant General Counsel for Materials Litigation and Enforcement at the same address; the Regional Administrator, NRC Region IV, 1600 East Lamar Blvd., Arlington, TX 76011-4511; and to the Licensee if the answer is by a person other than the Licensees.

In addition, the Licensee and any other persons adversely affected by this Order may request a hearing on this Order within 20 days of its issuance. Where good cause is shown, consideration will be given to extending the time to request a hearing. A request for extension of time must be made in writing to the Chief Financial Officer, and include a statement of good cause for the extension. If a person other than the Licensee requests a hearing, that person shall set forth with particularity the manner in which his or her interest is adversely affected by this Order and shall address the criteria set forth in 10 CFR 2.309(d) and (f).

If the Licensee or a person whose interest is adversely affected requests a hearing, the Commission will issue an Order designating the time and place of any hearing. If a hearing is held, the issue to be considered at such hearing shall be whether this Order should be sustained.

A request for hearing must be filed in accordance with the NRC E-Filing rule, which became effective on October 15, 2007. The NRC E-Filing Final Rule was issued on August 28, 2007, (72 Fed. Reg. 49,139) and codified in pertinent part at 10 CFR Part 2, Subpart C. The E-Filing process requires participants in adjudicatory proceedings to submit and serve documents over the internet or, in some cases, to mail copies on electronic optical storage media.

Participants may not submit paper copies of their filings unless they seek an exemption in accordance with the procedures described below.

To comply with the procedural requirements associated with E-Filing, at least ten (10) days prior to the filing deadline the requestor must contact the Office of the Secretary by e-mail at hearingdocket@nrc.gov, or by calling (301) 415-1677, to (1) request a digital identification (ID) certificate, which allows the participant (or its counsel or representative) to digitally sign documents and access the E-Submittal server for any NRC proceeding in which it is participating; and/or (2) advise the Secretary that the requestor will be submitting a request for hearing (even in instances when the requestor (or its counsel or representative) already holds an NRC-issued digital ID certificate). Based upon this information, the Secretary will establish an electronic docket for the hearing in this proceeding if the Secretary has not already established an electronic docket. Information about applying for a digital ID certificate also is available on NRC's public website at <http://www.nrc.gov/site-help/e-submittals/apply-certificates.html>. Each requestor will also need to download the IBM Forms™ Viewer to access the Electronic Information Exchange (EIE), a component of the E-Filing system. The IBM Forms™ Viewer is free and is available at <http://www.nrc.gov/site-help/e-submittals/install-viewer.html>.

Once a requestor has obtained a digital ID certificate and downloaded the EIE viewer, and a docket has been created, the requestor can then submit a request for a hearing through the EIE. Submissions should be in Portable Document Format (PDF) in accordance with NRC guidance available on the NRC public website at <http://www.nrc.gov/site-help/e-submittals.html>. A filing is considered complete at the time the filer submits its document through the EIE. To be timely, electronic filings must be submitted to the E-Filing system no later than 11:59 p.m. eastern time (ET) on the due date.

Upon receipt of a transmission, the E-Filing system time-stamps the document and sends the submitter an e-mail notice confirming receipt of the document. The E-Filing system also distributes an e-mail notice that provides access to the document to the NRC Office of the General Counsel and any others who have advised the Office of the Secretary that they wish to participate in the proceeding, so that the filer need not serve the document on those participants separately. Therefore, any others who wish to participate in the proceeding (or their counsel or representative) must apply for and receive a digital ID certificate before a hearing request is filed so that they can obtain access to the document via the E-Filing system.

A person filing electronically using the agency's adjudicatory E-Filing system may seek assistance through the "Contact Us" link located on the NRC website at <http://www.nrc.gov/site-help/e-submittals.html> or by calling the NRC Meta System Help Desk, which is available between 8:00 a.m. and 8:00 p.m., ET, Monday through Friday, excluding government holidays. The toll-free help line number is (866) 672-7640. A person filing electronically may also seek assistance by sending an e-mail to the NRC Meta System Help Desk at MSHD.Resource@nrc.gov.

Participants who believe that they have good cause for not submitting documents electronically must file an exemption request, in accordance with 10 CFR 2.302(g), with their initial paper filing requesting authorization to continue to submit documents in paper format. Such filings must be submitted by (1) first class mail addressed to the Office of the Secretary of the Commission, U.S. Nuclear Regulatory Commission, Washington, DC 20555-0001, ATTN: Rulemaking and Adjudications Staff; or (2) courier, express mail, or expedited delivery service to the Office of the Secretary, Sixteenth Floor, One White Flint North, 11555 Rockville Pike, Rockville, Maryland 20852, ATTN: Rulemaking and Adjudications Staff. Participants filing a document in this manner are responsible for serving the document on all other participants.

Filing is considered complete by first-class mail as of the time of deposit in the mail, or by courier, express mail, or expedited delivery service upon depositing the document with the provider of the service.

Documents submitted in adjudicatory proceedings will appear in NRC's electronic hearing docket, which is available to the public at <http://ehd1.nrc.gov/ehd/>, unless excluded pursuant to an order of the Commission or the presiding officer. Participants are requested not to include personal privacy information, such as social security numbers, home addresses, or home phone numbers in their filings, unless an NRC regulation or other law requires submission of such information. With respect to copyrighted works, except for limited excerpts that serve the purpose of the adjudicatory filings and would constitute a Fair Use application, participants are requested not to include copyrighted materials in their submissions.

V

In the absence of a request for hearing, or written approval of an extension of time in which to request a hearing, License No. 42-29407-01 shall be revoked and all other provisions in Part III of this Order shall be final within 20 days of the date of this Order without further order or proceedings. If an extension of time for requesting a hearing has been approved, the provisions in Part III shall be final when the extension expires if a hearing request has not been received.

Pursuant to 10 CFR 15.29, the Commission may not consider an application for a license from the Licensee unless all previous delinquent debts of the Licensee to the NRC, including the delinquent debt(s) identified in this Order, have been paid in full. In addition, failure to meet the requirements of this Order may subject the Licensee and its agents to civil penalties and criminal sanctions.

CERTIFICATION

This certification MUST be signed by the owner of the entity named above or an official empowered to act on behalf of the entity.

I certify that the above named NRC licensee qualifies as a small entity under the size standards established by the NRC for its licensees in 10 CFR 2.810. The licensee qualifies as a small entity under the specific size standard indicated above.

WARNING: 18 U.S.C. Section 1001, Act of June 25, 1948, 62 Stat. 749, makes it a **criminal offense** to make a willfully false statement or representation to any Department or Agency of the United States as to any matter within its jurisdiction. The submittal of willful false statements is punishable by fine or imprisonment, or both, and for purposes of this certification, may result in revocation or suspension of the license.

DO NOT COMPLETE OR RETURN THIS FORM IF YOU DO NOT QUALIFY AS A SMALL ENTITY**

**CERTIFICATION OF SMALL ENTITY STATUS FOR THE PURPOSES
OF ANNUAL FEES IMPOSED UNDER 10 CFR PART 171**

A licensee who qualifies as a small entity under a specific size standard established by the NRC may pay a reduced annual fee by filing the required certification on NRC Form 526, which is on the reverse side of this page. A separate NRC Form 526 is required for each invoice. Licensees who do not qualify under one of the 5 size standards shown on NRC Form 526 should disregard this form.

1. Complete all items on NRC Form 526 as follows: **(NOTE: Incomplete or improperly completed forms will be returned as unacceptable.)**
 - Enter the licensee's name and address exactly as they appear on the invoice. Annotate name and/or address changes for billing purposes on the payment copy of the invoice -- Correcting the name and/or address on NRC Form 526 or on the invoice does not constitute a request to amend the license.
 - Enter the invoice number exactly as it appears on the invoice.
 - Enter the company's business telephone number. Enter the docket number exactly as it appears on the invoice.
 - Enter the contact person's name and email address. Enter the company's website address (if applicable), and the contact person's telephone number.
 - Check the appropriate size standard under which the licensee qualifies as a small entity. Check one box only. Note the following:
 - a. A licensee that is a subsidiary of a large entity, including foreign entities, does not qualify as a small entity. The calculation of a firm's size must include the employees or receipts of the parent company and all other affiliates. Affiliation with another concern is based on the power to control whether exercised or not. Such factors as common ownership, common management and identity of interest are indications of affiliation. The affiliated business concerns need not be in the line of business listed in the license.
 - b. Gross annual receipts, as used in the size standards, include all revenue received or accrued by your company from all sources, regardless of the form of the revenue, and not solely receipts from licensed activities. Receipts of a for-profit concern not engaged in manufacturing means average gross receipts over its last three completed fiscal years. (For additional information on calculating annual receipts, see 13 C.F.R. 121.104.) By contrast, number of employees of a manufacturing concern is based on employment during each pay period for the preceding 12 calendar months. (For additional information on calculating number of employees, see 13 C.F.R.121.106.)
 - c. NRC's size standards on small entity are generally based on the Small Business Administration's regulations (13 C.F.R. Part 121). However, where there is a direct conflict between the Small Business Administration's regulations and NRC regulations on the subject, NRC regulations are applicable to NRC licensees.
 - d. The size standards apply to the licensee, not to the individual authorized users who may be listed in the license.
 - e. If you are a manufacturer, enter your North American Industry Classification System business code in the narrow, elongated box provided for that purpose under MANUFACTURING INDUSTRY on Form 526. In accordance with the North American Industry Classification System (NAICS), each business is assigned a NAICS business code. If you do not know your NAICS business code it can be obtained on the internet at www.census.gov.
 - f. As used in Form 526, "educational institution" means an entity that has education as its primary function; that offers programs accredited by a nationally recognized accrediting agency or association; that is legally authorized to provide a program of organized instruction or study; that provides an educational program for which it awards academic degrees; and that makes its educational programs available to the public.

2. If the invoice states the "Amount Billed Represents 50% Proration," the amount due is not the prorated amount shown on the invoice, but rather one-half of the maximum small entity annual fee shown on NRC Form 526 for the size standard under which the licensee qualifies (either \$1400 or \$300) for each category billed.
3. If the invoice amount is less than the reduced small entity annual fee shown on this form, pay the amount on the invoice; there is no further reduction. In this case, do not file NRC Form 526. However, if the invoice amount is greater than the reduced small entity annual fee, file NRC Form 526 and pay the amount applicable to the size standard you checked on the form.
4. The completed NRC Form 526 must be submitted with the required annual fee payment and the "Payment Copy" of the invoice to the address shown on the invoice.
5. 10 CFR 171.16(c)(3) provides that a licensee must submit a new certification with its annual fee payment each year. A licensee must pay the full amount of the invoice, if the licensee fails to submit NRC Form 526 at the time the annual fee is paid.

The licensee, or any individual executing this certificate on behalf of the licensee, certifies that:

- 1. No radioactive materials have ever been procured or possessed by the licensee under this license.
- 2. All activities authorized by this license have ceased, and all radioactive materials procured and/or possessed by the licensee under this license number cited above have been disposed of in the following manner:
 - a. Transfer of radioactive materials to the licensee listed below:
 - b. Disposal of radioactive materials:
 - 1. Directly by the licensee:
 - 2. By licensed disposal site:
 - 3. By waste contractor:
 - c. All radioactive materials have been removed such that any remaining residual radioactivity is within the limits of 10 CFR Part 20, Subpart E, and is ALARA.

C. SURVEYS PERFORMED AND REPORTED

- 1. A radiation survey was conducted by the licensee. The survey confirms:
 - a. the absence of licensed radioactive materials
 - b. that any remaining residual radioactivity is within the limits of 10 CFR 20, Subpart E, and is ALARA.
- 2. A copy of the radiation survey results:
 - a. is attached; or b. is not attached (Provide explanation); or c. was forwarded to NRC on: _____ Date
- 3. A radiation survey is not required as only sealed sources were ever possessed under this license, and
 - a. The results of the latest leak test are attached; and/or

CERTIFICATE OF DISPOSITION OF MATERIALS

PLEASE READ THESE INSTRUCTIONS BEFORE COMPLETING NRC FORM 314.

Subpart E of 10 CFR Part 20 establishes the radiological criteria for license terminations/decommissioning of facilities licensed under 10 CFR Parts 30, 40, 50, 60, 61, 70, and 72, as well as other facilities subject to the Commission's jurisdiction under the Atomic Energy Act of 1954, as amended, and the Energy Reorganization Act of 1974, as amended.

INSTRUCTIONS

Section B, Item 2.

Licensees should describe the specific radioactive material transfer actions. If radioactive wastes were generated in terminating this license, the licensee should describe the disposal actions taken, including the disposition of low-level radioactive waste, mixed waste, greater-than-Class-C waste, and sealed sources.

Section B, Item 2.a.

The information provided concerning the transfer of radioactive material to another licensee should specify the date of the transfer, the name of the licensee recipient, an individual contact name and telephone number for the licensee recipient, and the recipient's NRC or Agreement State license number.

Section B, Item 2.b.

For disposal of radioactive materials, licensees should describe the specific disposal method or procedure (e.g., decay-in-storage). For those cases when radioactive materials are disposed of by a licensed disposal site or by a waste contractor, the licensee should specify the name, address, and telephone number of the licensed disposal site operator or waste contractor.

Section B, Item 2.c.

"Residual radioactivity," as defined in 10 CFR 20.1003, means radioactivity in 'areas' (structures, materials, soils, etc.) remaining as a result of activities (licensed and unlicensed) under the licensee's control from sources used by the licensee, excluding background radiation. ALARA is defined in 10 CFR 20.1003.
