Re: Request for Information under Freedom of Information Act (FOIA)/PIA
NRC records for Martin State Airport, 701 Wilson Point Road, Baltimore, Maryland 21220

Dear Sir or Madam:

This is a request under the Freedom of Information Act/Privacy Act (FOIA/PA) 5 U.S.C. 552). We are currently contracted by Lockheed Martin to review available records regarding prior operations and radioactive material handling at the above-referenced study area.

Because there have been many owners and license numbers associated with the facilities at Martin State Airport, we submit by Attachment Table 1 to be used to guide FOIA record searches for this request. The requested records are itemized by facility name, address, license, owner, and keywords. We are interested in obtaining copies of records for all of the licenses referenced in Table 1 for the various addresses and tenants. (Note we are not requesting records specific to the separate Martin Company licensee address of 2323 Eastern Blvd. Baltimore, MD, but there may be some overlap in the records for the requested license numbers). The license information of we seek may contain one or more of the key words in Table 1. We are interested in reports, license amendments, applications, surveys, radiological health records, site inspections, and particularly maps or floor plans that may be contained in any of these records. Also of interest would be shipping and disposal records, if any, for the radiological wastes (e.g., filters, etc.) generated in any of these facilities or under any of the requested licenses.

If you have any questions concerning this request, please contact the undersigned at (301) 523-3018, or email me at Amy.McGivney@tetrattech.com. We are willing to pay fees applicable to the processing of this request, however, please notify me in writing so the expense can be approved.

Sincerely,

Amy McGivney
Project Manager
