"Duplicate Numbers Used in Requests for Additional Information Related to
Chapter 13 for the Fermi 3 Combined License Application," dated November
14, 2013

Subject: Renumbered Responses to NRC Requests for Additional Information Related
to Chapter 13 for the Fermi 3 Combined License Application

In Reference 2, the NRC staff identified that the tracking numbers for several Requests for Additional Information (RAIs) related to Chapter 13 of the Fermi 3 Final Safety Analysis Report (FSAR) were duplicated. These RAIs were assigned new tracking numbers by the NRC staff to correct the duplication issue. In addition, the NRC staff requested that the DTE Electric responses to these RAIs be resubmitted using the reassigned RAI tracking numbers.

The attachments to this letter provide the requested responses. The original DTE Electric RAI responses have been administratively renumbered with no other changes. The cover page for each attachment contains notes that identify the original NRC RAI letter and original DTE Electric response, as well as other information pertaining to the response.

If you have any questions, or need additional information, please contact me at (313) 235-3341.

I state under penalty of perjury that the foregoing is true and correct. Executed on the 6th day of December 2013.

Sincerely,

Peter W. Smith, Director
Nuclear Development – Licensing and Engineering
DTE Electric Company
