and Safeguards

SUBJECT: SUMMARY OF NOVEMBER 18 PUBLIC MEETING IN CARLSBAD,  
CALIFORNIA, TO RECEIVE COMMENTS ON THE WASTE  
CONFIDENCE DRAFT GENERIC ENVIRONMENTAL IMPACT  
STATEMENT AND PROPOSED RULE

On Monday, November 18, 2013, members of the U.S. Nuclear Regulatory Commission (NRC) staff held a Category 3 public meeting at the Sheraton Carlsbad Resort & Spa in Carlsbad, California. The purpose of the meeting was to provide an overview of the Waste Confidence draft generic environmental impact statement (DGEIS) and proposed rule, and to accept public comments on the documents. Participants also had an opportunity to ask questions about the NRC's environmental review and rulemaking process.

The NRC conducted an open house beginning at 6:00 p.m. PST where members of the public met informally with NRC staff and asked questions related to the DGEIS and proposed rule. The public meeting began at 7:00 p.m. PST and concluded at 9:50 p.m. PST. The meeting began with an introduction of NRC staff and a review of meeting ground rules, followed by a short presentation on the Waste Confidence DGEIS and proposed rule. The majority of the meeting was dedicated to receiving comments from members of the public.

The staff's slide presentation is available in the NRC's Agencywide Document Management and Access System (ADAMS) under Accession No. ML13273A339. The transcript for the meeting is available in ADAMS under Accession No. ML13339A942. NRC handouts available at the meeting can be accessed at ML13319A111, ML13319A108, and ML13319A110. Posters displayed during the open house can be accessed at ML13279A004. The ADAMS Public Electronic Reading Room is accessible at <http://www.nrc.gov/reading-rm/adams.html>. Persons who do not have access to ADAMS, or who encounter problems in accessing documents

located in ADAMS, should contact the NRC's Public Document Room reference staff at 1-800-397-4209, or via e-mail at [pdr@nrc.gov](mailto:pdr@nrc.gov). For convenience, web links to the staff's presentation materials and the meeting transcript are also available on the Waste Confidence Directorate's website at <http://www.nrc.gov/waste/spent-fuel-storage/wcd/pub-involve.html>.

Approximately 103 people attended the meeting and 33 provided comments. Meeting participants included members of the public, a staff member from Senator Dianne Feinstein's office (D – CA), a representative of Clark County, Nevada, and members of industry and public advocacy groups. A list of meeting participants is included as Attachment 1.

One question was asked during the question-and-answer period that concerned the applicability of the Waste Confidence rulemaking. Topics and concerns raised during the public comment portion of the meeting included: general opposition to nuclear power and support for renewable energy; calls to stop making additional nuclear waste; opposition to the generic approach of Waste Confidence and support for site-specific reviews; opposition to onsite storage of spent nuclear fuel at San Onofre; concern about storing high-burn-up-fuel; critique of the NRC's analysis of accidents; concern about accidents caused by earthquakes, tsunamis, and terrorism; Fukushima; climate change impacts on the safe storage of spent fuel; issues specific to local facilities San Onofre and Diablo Canyon, specifically their coastal locations and seismic risks; health effects of radiation and real-time radiation monitoring; the Blue Ribbon Commission recommendations; molten salt reactors; support for nuclear power in light of climate change concerns; support for the continued safe storage of spent fuel; support for a permanent geologic repository (Yucca Mountain); and support for the DGEIS, proposed rule, and the NRC's 24-month timeline.
