TRAINING: Completed December 2013 for IP 71130.03, IP 71130.05 and IP 71130.08

REMARKS: IMC 0310, "Aspects Within Cross Cutting Areas," has been revised to align with the safety culture common language attributes and the Commission's safety culture policy statement.

IP 71130.03, "Contingency Response - Force-On-Force Testing," has been revised to reflect Force-on-Force program Changes. Those changes included the insertion of the escalation process and revisions to number exercises required for sample completion.

IP 71130.05, "Protective Strategy Evaluation," has been re-written to comply with IMC 0040 format and establish inspection requirement range for procedure completion. Additionally, inspection periodicity changed from biennial to triennial. Performance evaluation program inspection requirements added to the IP to increase efficiencies.

IP 71130.08, "Fitness For Duty Program," has been rewritten to comply with IMC 0040 format and establish an inspection requirement range for procedure completion.

IP 71130.09, "Licensee Performance Evaluation Program," has been deleted. The objective of the pilot program has been met, and the necessary requirements from it have been incorporated into IP 71130.05.

IP 81000.14, "Review of New Reactor Target Sets," is a new procedure for New Reactor target sets to ensure target sets are complete and accurate for development of a new reactor's protective strategy.

DISTRIBUTION: Standard for IMC 0310

DISTRIBUTION: IP 71130.03, 71130.05, 71130.08, 81000.14 have been designated as containing "Official Use Only – Security-Related Information," and are therefore not available to the public. For information on these IPs, please contact F. Scot Sullivan at 301-287-3624 for the 71130 series, and Michael Buckley at 301-287-3604 for IP 81000.14
