Richard Freudenberger, Director
Quality, Safety and Safeguards
Nuclear Fuel Services, Inc.
P.O. Box 337, MS 123
Erwin, TN 37650

SUBJECT: CALENDAR YEAR 2014 INSPECTION SCHEDULE

Dear Mr. Freudenberger:

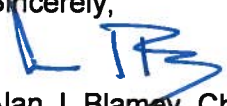

The enclosed inspection schedule details the inspections for calendar year (CY) 2014. The inspection schedule is provided to minimize the resource impact on your staff and to allow for the resolution of any scheduling conflicts and personnel availability issues well in advance of inspector arrival onsite.

Please note that inspections related to safeguards are not included in this schedule. In addition, any regional initiative or other reactive inspection is not included. Inspection Manual Chapter (IMC) 2600 is currently under revision. The enclosed schedule reflects the anticipated changes. We do not expect any changes to the current schedule as a result of IMC 2600, but if any changes occur we will communicate those changes with you.

If circumstances arise which cause us to change the dates of the planned inspections, we will contact you to discuss the change as early as possible. Please contact either Carmen Rivera at (404) 997-4515 or David Hartland (404) 997-4722 with any questions you may have regarding this letter or the inspection schedule.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter and its enclosure will be made available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records (PARS) component of NRC's document system (ADAMS). ADAMS is accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,

Alan J. Blamey, Chief
Fuel Facility Inspection Branch 1
Division of Fuel Facility Inspection
