

December 20, 2013

Mr. Clint Gregg
Radiation Safety Officer
Aptuit, LLC
10245 Hickman Mills Drive
Kansas City, Missouri 64134-0708

SUBJECT: APTUIT, LLC MASTER INSPECTION PLAN – CALENDAR YEAR (CY) 2014

Dear Mr. Gregg:

In accordance with U.S. Nuclear Regulatory Commission (NRC) Inspection Manual Chapter (IMC) 2602, "Decommissioning Oversight and Inspection Program for Fuel Cycle Facilities and Materials Licensees," the NRC Region III staff and management have developed a Master Inspection Plan (MIP) for Aptuit, LLC (Aptuit or licensee). The plan is based on your remediation activities and anticipated submittal of a Final Status Survey (FSS) in CY 2014 for all areas of former radiological use and storage. The plan outlines how we intend to focus our Regional inspection resources to provide oversight for significant decommissioning activities.

Because this MIP is based, in part, on your proposed schedule of significant decommissioning activities for CY 2014; the plan and focus of the NRC inspection activities may change to reflect a change in your planned decommissioning activities or your performance. In order to ensure that this MIP remains current, we request that you keep the Materials Control, Independent Spent Fuel Storage Installation (ISFSI) and Decommissioning Branch staff informed of any significant changes in your proposed schedule of decommissioning activities. You will be informed of any significant changes to the licensee's decommissioning inspection schedule.

We currently project the region will conduct one (1) site inspection at Aptuit in CY 2014 to evaluate radiological conditions and decommissioning activities. The specific procedures used during the inspection will depend on the specific decommissioning activities being conducted and reviews needed to complete NRC's review of the licensee's remediation activities. The NRC may also be using Oak Ridge Associated Universities (ORAU) to support NRC's review of the licensee's decommissioning activities.

<u>Inspection Procedure</u>	<u>Title</u>
IP 88005	Management Organization and Controls
IP 83822	Radiation Protection
IP 86740	Inspection of Transportation Activities
IP 84900	Low-Level Radioactive Waste Storage
IP 87104	Decommissioning Inspection Procedure for Materials Licensees
IP 93001	OSHA Interface Activities

C. Gregg
