SUBJECT: CDL NUCLEAR TECHNOLOGIES, INC., VOIDANCE OF APPLICATION FOR  
LICENSE AMENDMENT, CONTROL NO. 582229

Dear Mr. Wilson:

This concerns your amendment request letter dated September 19, 2013, requesting to add Andres Ruiz-Arango, M.D., Michael Metzger, M.D., and Charles L. Harring, M.D. as authorized users to your material license. Additional information required to complete the action was requested by Janice Nguyen on November 7, 2013. Because you informed Ms. Nguyen by telephone on December 11, 2013 that you will not be able to supply the additional information for some time, we have voided your application. This action is taken without prejudice to the resubmission of your request. Once you have the additional information, you may resubmit in full, or submit the additional information and reference mail control number 582229.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,
