Mr. Joseph W. Shea
Vice President, Nuclear Licensing
Tennessee Valley Authority
1101 Market Street, LP 3D-C
Chattanooga, TN 37402-2801

**SUBJECT: MEETING SUMMARY – LICENSE RENEWAL INSPECTION PUBLIC EXIT
MEETING FOR SEQUOYAH NUCLEAR PLANT**

Dear Mr. Shea:

On December 17, 2013, the U.S. Nuclear Regulatory Commission (NRC) conducted an exit meeting at the Sequoyah Training Center in Soddy-Daisy, TN, in which we discussed the preliminary results of an NRC inspection of the scoping and screening methodology, and implementation of aging management programs associated with the license renewal application for Sequoyah Nuclear Plant, Units 1 and 2. The meeting accomplished the goal of communicating the inspection activities conducted to assess your license renewal activities and inspection results in a public setting. The meeting also afforded the members of the public the opportunity to ask questions and provide feedback to the NRC regarding NRC's inspection activities at the Sequoyah Nuclear Plant after the business portion of the meeting.

The list of meeting attendees is enclosed in this letter. The presentation slides and notes used for the meeting are available in the NRC's Agencywide Documents Access and Management System (ADAMS) under Accession Number ML 13361A021.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter, its enclosure, and your response (if any), will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System (PARS) component of NRC's ADAMS, accessible from the NRC Web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Should you have any questions concerning this letter, please contact me at 404-997-4560.

Sincerely,

RA

Steven J. Vias, Chief
