Eric and David,

Looking through the DFP you submitted recently, although it follows the format of previous submissions, there is no discussion of the costs for decommissioning of the cyclotron. In the DFP dated October 12, 2009, you specified separate costs of \$152,000 for disposal of wastes from the cyclotron, and \$84,000 for dismantling the cyclotron. These costs are not included in your recent submission.

Please take a look through your entire DFP and make sure you have accounted for costs associated with the cyclotron. If you believe you no longer need to consider these costs, please explain why.

Please respond with a hard copy letter, or a pdf or fax of a hard copy letter with an original signature. Feel free to contact me if you have any questions.

Thanks,
Betsy
