SUBJECT: CLOSURE OF INVESTIGATION (OI 4-2012-019)

Dear Mr. Cortopassi:

This refers to an investigation conducted by the NRC's Office of Investigations regarding activities at the Fort Calhoun Station. The Office of Investigations initiated the investigation to determine whether personnel at the Fort Calhoun Station willfully failed to provide the NRC with complete and accurate information regarding the qualifications of contractor workers conducting calibration on an HE-2 crane at the site.

Based on the evidence developed, this investigation did not substantiate the allegation that personnel at the Fort Calhoun Station willfully failed to provide the NRC with complete and accurate information regarding the qualifications of contractor workers conducting calibration on an HE-2 crane at the site.

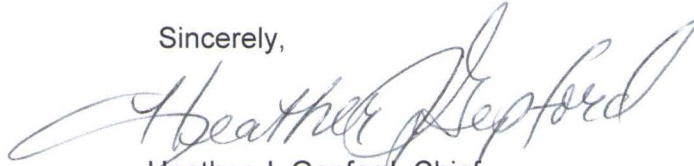

You should note that final NRC documents may be made available to the public under the Freedom of Information Act subject to redaction of information pursuant to the Freedom of Information Act. Requests under the Freedom of Information Act should be made in accordance with 10 CFR 9.23, Requests for Records. Information is accessible from the NRC's website at <http://www.nrc.gov/reading-rm/foia/foia-request.html#how>.
