SAFETY EVALUATION REPORT
Docket No. 71-9252
Model No. 51032-2
Certificate of Compliance No. 9252
Revision No. 8

SUMMARY

By application dated September 19, 2013, as supplemented December 18, 2013, AREVA NP, Inc. (AREVA NP), requested renewal of Certificate of Compliance No. 9252, for the Model No. 51032-2 transportation package. As part of their renewal, AREVA NP requested revising Condition No. 5.(b)(1), "Contents," to reflect the latest contents table in the safety analysis report (SAR). Staff reviewed these changes and concludes that they do not affect the ability of the package to meet the requirements of 10 CFR Part 71. The certificate has been renewed for a 5 year term.

EVALUATION

By application dated September 19, 2013, as supplemented December 18, 2013, AREVA NP requested renewal of Certificate of Compliance No. 9252, for the Model No. 51032-2 transportation package. AREVA NP requested revising Condition No. 5.(b)(1), "Contents," to reflect the latest contents table, Table 6-1, in their SAR. Staff reviewed Table 6-1 and ensured the values were bounded by the criticality analyses performed and approved as part of previous amendments. The staff performed confirmatory calculations under both dry and flooded conditions, and the results did not exceed the upper subcritical limit. Staff concludes that these changes do not affect the ability of the package to meet the requirements of 10 CFR Part 71.

CONDITIONS

Condition No. 3.(b), "Title and Identification of Report or Application," has been updated to reflect AREVA NP's new address.

Condition No. 5.(b)(1), "Contents," has been updated to replace the previous table with Table 6-1 found in the SAR.

Condition No. 11 has been updated to allow continued use of the previous revision for up to one year.

Condition No. 12 has been updated to the new expiration date.

The references section has been updated to include this amendment request.

CONCLUSION

Based on the statements contained in the application, and the conditions listed above, the staff concludes that the changes indicated do not affect the ability of the package to meet the requirements of 10 CFR Part 71. The certificate has been renewed for a 5 year period.
