General Comment

Dear Secretary U.S. Nuclear Regulatory Commission

Greetings Rulemakings and Adjudication Staff,

As a Japanese origin, I know the lie of propaganda: "Nuclear energy is safe and clean."

From uranium mining to nuclear waste, all the process will spread radioactive nucleus into environment and to all the creatures.

I urge you to store nuclear waste in dry casks and safely keep in the nuclear plant site. Immediately decommission all the nuclear power sites and fund for sustainable energy.

Those who work as nuclear engineer here in the U.S.

Please go to Fukushima and help containing Fukushima nuclear incident.

We need your support there.

Thank you,
