Secretary
U.S. Nuclear Regulatory Commission
Washington, DC 20555-0001
ATTN: Rulemakings and Adjudications Staff

To Whom It May Concern:

As a 35-year resident of the city of San Luis Obispo, I support the NRC's Spent Fuel Storage Rule. In 2011 I had an opportunity to tour Diablo Canyon Nuclear Power Plant. I am confident that the spent fuel storage area provided by PG&E is safe and acceptable based on what I saw and the information I was provided during that tour.

Regardless, the Federal Government, specifically the Department of Energy must be proactive in finding a solution to the long term spent fuel storage issue. This is what they promised the residents of this county and they need to follow through with that promise. PG&E has done their job and continues to do so with transparency and has shown their dedication to this community. I urge the Department of Energy to do the same.

Regards,

Andrea Devitt

City of San Luis Obispo
