Docket: NRC-2012-0246

Consideration of Environmental Impacts on Temporary Storage of Spent Fuel After Cessation of Reactor Operation

Comment On: NRC-2012-0246-0456

Waste Confidence - Continued Storage of Spent Nuclear Fuel; Extension of Comment Period

Document: NRC-2012-0246-DRAFT-1135

Comment on FR Doc # 2013-26726

Submitter Information

Name: Alison Tucker

General Comment

As a resident of South Orange County I feel it is entirely unacceptable to store nuclear waste permanently at a facility so close to this highly populated and desirable area. A failure in the storage containers with any kind of failure in the future could produce disastrous effects to one of the most lovely areas in North America. This must not be done. If a company undertakes to use nuclear material to produce energy it must have a SAFE method of disposing of it, not near the ocean or any other area which might affect the people and ecosystem in close proximity. The waste must be MOVED and disposed of SAFELY.
