I understand. Thanks. Any information or a contact person would be helpful.

Happy Holidays

Hi Cynthia

We have changed the KI procurement process. HHS is now ordering and shipping the tablets. I am not sure if they will be able to accommodate special packaging requests. I will check and get back with you.

Thanks
Trish Milligan

I found this e-mail chain regarding packaging a couple e-mails below:

From: Tangney, Cynthia [mailto:Cynthia.Tangney@ct.gov]

Subject: RE: KI Replenishment for Connecticut

Good Afternoon,

I was wondering if you could provide an update on the status of the KI replenishment. A planning committee was formed and it was decided that CT would use the same distribution plan we followed in 2007. We are beginning to receive public inquiries as to where the new KI is and when folks will be receiving it. Any new information you may be able to provide would be greatly appreciated.

Thanks very much,

Cindy

Hi Cynthia,

The NRC contract accepts whatever packaging the manufacturer provides in their bid. In the past States that wanted special packaging considerations made separate arrangements for such packaging with the vendor once their State's KI order has been placed. CT has made separate arrangements with Anbex in the past for special packaging considerations.

Once the contract has been awarded, we will forward to you the vendor's contact information and you can negotiate your requirements directly with Anbex.

If you have any additional questions or concerns, please don't hesitate to contact Annette or me.

Trish

Good morning Annette,

I have some concern about the packaging. If we have to unpack all of those yellow boxes it will make distribution nearly impossible.

Since the NRC is still in contract negotiations, I would strongly suggest State input on the packaging.

Respectfully,

Cynthia Tangney

Good Afternoon Ms. Tangney,

Thank you for sending me updated contact information and shipping address. Please see my responses to your questions in red below. I have also attached packaging and pallet information. When I have more information about delivery timeframes, I will be glad to provide that to you.

Please let me know if you have any additional questions.

Thank you,
Annette Stang

Hello Annette,

Thank you for your email! Deb retired in October of 2012, and I have replaced her as of January.

I do have a few questions regarding replenishment of Potassium Iodide (KI).

1. How will the KI be packaged? Do you have a sample that we could see and use for our distribution planning purposes?

Each package contains 20 tablets. I have attached Packaging and Pallet information to this e-mail. Please know the picture above is a sample of what we have used in the past. We currently do not have a contract so package might not be exactly the same.

2. Will we be able to receive the KI before February of 2014? Our goal is to send the KI to the States before current tablets expire. At this time, I can't an actual date as we don't have a contract yet. We wanted to distribute the new KI before the old one expires.
3. What is the expiration date of the replenishment stock? I will not have that information until we have a contract in place with a vendor. We are in the process of obtaining a new contract.

We can receive the KI at our facility at 269 Maxim Road, in Hartford, CT 06114. We will need to know how many boxes or pallets there will be so we can ensure that someone is there to receive it. That would be 10 pallets, please know they can be double stacked, see attachment with dimensions.

Thank you,

Cynthia Tangney

Good Morning Cynthia,

Please see the e-mail below, I had sent this to Deborah Ferrari who was my last contact for the previous order we sent to CT. Please let me know if you have any questions regarding the KI replenishment. If you could send me your office address and also a shipping address if different from your office.

Thank you,
Annette Stang

Hello,

The NRC is preparing to replenish expiring stockpiles of KI tablets. According to our records your State has 370,000 (130mg) tablets with lot numbers PO3-6 expiring in February 2014 and 270,000 tablets, lot number PO3-9 that will expiring in April 2014. We are no longer supplying (130mg) tablets and will replace stockpiles with (65mg) tablets (2 per adult and 1 per child). We will replace your (130mg) tablets with 1,280,000 (65 mg) tablets. The NRC will replace the expiring stockpiles during fiscal year 2014. If your State wishes to participate in the NRC KI tablet replenishment, please respond with the delivery address, point of contact (including phone number) and any special delivery requests you have no later than May 31, 2013. Please note these tablets will not be shipped until 2014 to ensure timely replacement of your States expiring KI stockpiles. We will notify you prior to shipment of the tablets to enable you to make any preparations necessary for receipt of the shipment.

Thank you so much for your prompt attention to this matter. I look forward to your response. Please let me know if you have any questions.

Thank you,
Annette Stang
