Meeting Title: Public Meeting to Receive Comments on the Waste Confidence Draft Generic Environmental Impact Statement and Proposed Rule - San Luis Obispo, CA

Thank you for attending this public meeting hosted by the NRC. In order to help us understand your views about this meeting and improve future meetings, please take a couple minutes to answer the following questions.

Please address the following statements in terms of your experience at the meeting. 1 is "strongly disagree" and 5 is "strongly agree."

	"STRONGLY DISAGREE"	"DISAGREE"	"NEITHER AGREE OR DISAGREE"	"AGREE"	"STRONGLY AGREE"
* 1. The meeting achieved its stated purpose.	①	2	3	4	5
* 2. This meeting helped me to understand the topics discussed.	1	2	③	4	5
3. The meeting location, starting time, and duration were reasonably convenient.	1	2	3	④	5
* 4. The meeting facility, room set up, microphones, and visuals used contributed to the success of the meeting.	①	2	3	4	5
5. Attendees were given sufficient opportunity to ask questions or express their views.	1	2	③	4	5
* 6. Attendees were listened to and understood by NRC staff.	①	2	3	4	5
* 7. The presentations and explanations given by the NRC staff were understandable, fair and balanced.	①	2	3	4	5
* 8. I am satisfied overall with the NRC staff who participated in the meeting.	①	2	3	4	5

\* = See below for comments.

Please provide any suggestions you have on ways the NRC could improve their public meetings:

1. I am even LESS confident about waste storage than before the meeting.
2. The anti-nuclear comments were enlightening and intelligent. I learned nothing from the NRC.
4. There was a terrible echo from the microphone.
6. A STUPID statement! The NRC staff sat there, but they gave no evidence that they understood the concerns of most of the speakers.

Please provide any additional comments:

- 7. The NRC statements were not "balanced."
- 8. The NRC staff simply repeated the "company line." Obviously, they would be fired if they didn't do this.

A major point: The pro-nuclear speakers appeared to be employees of PG&E or from other pro-nuclear groups. ~~Their~~ <sup>Their</sup> statements appeared scripted, as if they had all been written by the same person in the P.R. office of PG&E.

Also, a generic EIR is crazy given that Diablo is underlain by multiple fault lines! Conditions vary from plant to plant.
