SUBJECT: STATUS REPORT

Dear Mr. Ryder:

Westinghouse Electric Company LLC (Westinghouse) herein provides a status report of the Nuclear Criticality Safety Improvement Project – II in accordance with License Safety Condition S-7. The enclosed figure reflects the status of completed activities through the end of December 2013.

In regards to the additional structural and seismic response analysis, of the major deliverables associated with the enhanced seismic program, eight of nine major milestones are now complete. The remaining milestone will be completed by 1/31/14 with the annual submittal of the Integrated Safety Analysis (ISA) Summary.

There were no new Nuclear Criticality Safety related validation reports issued this quarter.

Should you have any further questions, please contact me at (803) 647-3338.

Sincerely,

A handwritten signature in cursive script that reads 'Nancy Blair Parr'.
