Subject: Additional Information follow-up

*(This is the title that will be used in ADAMS)*

Discussion: I left a message for Mr. Cleary to call regarding the licensee's response to a request for additional information he sent on October 16, 2013. He returned the call on Dec 17, 2013 and I informed him that he did not address one of the questions in the request which asked that he confirm that the depleted uranium requested would not be manipulated or removed from the device. In addition, I noted in the response to the request for additional information, the documentation showing the disposition of devices containing Ni-63 that was submitted to support the request to remove Ni-63 from the license was missing some devices that were on the original letter. Mr. Cleary stated that he removed them because the licensee never had them. I asked that he confirm the disposition and respond to the question about the uranium in a letter signed by his management. Mr. Cleary stated that due to vacation time, he would be out of the office, I asked that he send the information to me by January 10, 2014 and he agreed.
