(North Anna Power Station, Unit 3)
Docket No. 52-017-COL; ASLBP No. 08-863-01-COL

Dear Administrative Judges:

Please find enclosed a copy of the DVD that Dominion provided to BREDL on January 6, 2014, containing the December 2013 update to the North Anna Unit 3 Combined License Application. As described in Dominion's letter dated January 6, 2014 to the Board, this DVD contains complete public versions (SUNSI and proprietary information redacted) of all of the Parts of the COLA updated in the December submittal, which consist of all Parts of the COLA other than Part 1 (General and Administrative Information). Thus, the DVD includes *inter alia* the complete public versions of the updated Final Safety Analysis Report, Environmental Report, Technical Specifications, Departures Report, and Tier 1/ITAAC information. Part 1, which was previously updated in the July 2013 submittal and is unaffected by the December update, may be found on ADAMS at Accession No. ML13225A624.
