Adrian

We need to confirm a couple of expectations relative to our upcoming Feb 14 COLA submission

- 1) In our recent submittals we have provided a reference doc file where we listed the DCD Tier 1 and Tier 2 by GEH document number. Apparently earlier in these evolutions, we included the DCD in this reference file. With the issuance of DCD rev 10 should simply update the reference doc file with the new GEH document number or should we include an electronic copy of DCD rev 10?
- 2) Last year we only submitted one disk as no information needing to be withheld was included. That will also be true for this year. Is the one disk acceptable again this year?
- 3) Please confirm the submission number is 12.

Thanks
