Attention: Mr. R. C. DeYoung
Assistant Director for
Pressurized Water Reactors

Gentlemen:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

In our letter of May 19, 1972 we agreed to periodically check the Public Document Room established by the USAEC at the San Clemente Public Library for the availability of certain documents pertaining to San Onofre Units 2 and 3 and to notify your office of any deficiencies we observed. We have completed the sixth quarterly check.

Enclosed for your information is a complete list of documents we found to be available in the San Onofre Units 2 and 3 files at the time of our sixth quarterly check on December 5, 1973.

It should be noted that:

1. The San Onofre Units 2 and 3 files were found to contain documents pertaining to San Onofre Unit 1. Such documents are noted on the list by an asterisk (*).
2. The documents listed in the Accession List appeared to be available. However, additional documents originating subsequent to the establishment of the Accession List were found to be available which were not listed on the Accession List.
3. Documents previously available which were not available at the time of the sixth quarterly check are noted on the list by asterisks (**).

1658

February 22, 1974

4. Accession Lists provided the library by the AEC have been labeled incorrectly as follows:

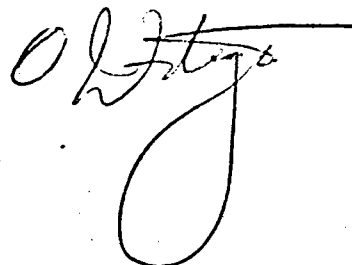

San Onofre Unit 1 Accession Lists have been labeled "San Onofre"

San Onofre Units 2 and 3 Accession Lists have been labeled "San Onofre 1 and 2"

In addition to the above identified deficiencies in the San Onofre Units 2 and 3 documents, it should also be noted that Volume 1 of the San Onofre Unit 1 Application for Permanent Operating License (Part I, Operational History and Verification of Design Objectives) is not retained in the Public Document Room.

We will continue to perform periodic checks on the Document Room and notify your office of deficiencies that are observed.

Very truly yours,

cc: Jack B. Moore
