Director of Nuclear Reactor Regulation
ATTN: Olan D. Parr, Chief
Branch No. 3, DPM
U.S. Nuclear Regulatory Commission
Washington, D.C. 20555

Dear Sir:

Subject: Docket Nos. 50-361 and 50-362
San Onofre Nuclear Generating Station
Units 2 and 3

Your letter to Mr. Jack B. Moore of May 14, 1976 requested that SCE provide a schedule for submitting our evaluation of the adequacy of the San Onofre Units 2 and 3 pressure vessel supports when sub-cooled internal loads are considered. A list of specific information to be included in the evaluation was provided as an attachment to your letter.

As we have indicated in previous correspondence, we are planning to submit the San Onofre Units 2 and 3 operating license application in November of 1976. Information regarding the above subject which is not available in time to be included in the FSAR will be incorporated in subsequent amendments. All items identified in the attachment to your letter will be addressed by early 1978.

If you have any questions on this matter, please contact me.

Sincerely yours,

J. G. Haynes
Chief of Nuclear Engineering
