Subject: **Global Laser Enrichment Integrated Safety Analysis Summary Annual Update for SNM-2019**

Dear Ms. Haney:

The requirements in 10 CFR 70.72(d)(3), call for licensees to submit to NRC annually, within 30 days after the end of the calendar year during which the changes occurred, revised Integrated Safety Analysis (ISA) Summary pages. The purpose of this letter is to inform the NRC that GE-Hitachi Global Laser Enrichment LLC (GLE) has not made changes to the ISA Summary since the initial license for the GLE Commercial Facility (SNM-2019) was issued on September 25, 2012. Therefore, GLE will not be submitting revised pages.

If there are any questions regarding this letter and its contents, please do not hesitate to contact me at 910-819-5692 or at jerald.head@ge.com.

Sincerely,

Jerald Head
Senior Vice President
