Lisle, Illinois 60532-4351**Re: NRC Specific License Renewal**

Dear Mr. Tran,

We have ten electron capture detectors (ECD) located at our facility at 2 NE 32 Avenue, Kansas City, Missouri 64116. These include eight model number N610-0133 ECDs manufactured by Perkin Elmer Corporation, and two model number G2397A Agilent Technologies ECDs. Since all of our ECDs were sold and shipped to us under General Distribution Licenses from Perkin Elmer and Agilent, we do not see a need to renew our Specific License, which expires on August 31, 2013. We would like to continue to possess the ECDs as a General Licensee.

Sincerely,

Wilbur Dunnell
Senior ChemistML14 028 A 593

COMMENTS:

Dear Frank Tran, here is a copy of the information you requested on 1-28-14 as we spoke on the phone. You stated that you never received our letter to cancel our specific License for renewal that we sent to you on 8-26-13. I am sending you a copy of that letter that we faxed to (630) 515-1078. We were in communication with you and Ed Kulzer at your office. I am sending this fax to (630) 829-9782 as you requested on 1-28-14.

If you have a problem with this facsimile or it is incomplete call the above telephone number for help.
