Clarification of January 10, 2014 letter

There is no cover letter attached to the January 10, 2014 communication. The licensee submitted two documents with the same information one day apart. The first submission's cover letter on December 5, 2013 was not dated and was not signed by the management representative of record. The second submission's cover letter was dated December 6, 2013 and was signed by the President. The RAI to the licensee dated December 30, 2013 asked for re-submission of the December 5, 2013 document, which was not necessary since the December 6, 2013 submission was complete. As a result, I requested that the December 5, 2013 communication be removed from ADAMs.
