**Subject:** RE: Notification of Disposal of Seaman Gauges

Dear Mr. Dukatz,

There is no need to notify us, and me in particular, when you simply return gauges to the vendor. Lots of our licensees do that every day and we do not track this information in the Regional office. *We do not amend your license for this reason unless you specifically direct us to permanently take authorization for these gauges off of your license. You would have to submit an amendment request to do that and additional information, beyond what you have provided here, would be required to do that.*

*If your gauges are in the Nationally Tracked Sources or Generally Licensed Tracking System, you may need to update those databases with the appropriate persons in our headquarters offices.*

Please see my signature block below also.

Unless previously arranged with me directly, licensees should not submit notifications or amendment requests, renewal requests, licensing correspondence, etc. to me directly. My supervisor directs my work.

Please submit licensing correspondence to the attention of the "Materials Licensing Branch Chief." My name and position should not be referenced. The rest of our Region III street address is then correct. At this time, I will not be doing anything with the information you have enclosed, as it does not appear that you are requesting a licensing action at this time. If my understanding is incorrect, please let me know immediately.

If you still have questions, please let me know also.

Thanks very much.

*Colleen*

*(301) 816-5100*

Gentle Reminders: Unless previously arranged with or requested by me directly, please do not submit any licensing requests, responses or correspondence via e-mail.

Please only submit one complete, signed copy of your correspondence to us.

Please prepare your licensing requests in accordance with NUREG 1556 Series Guidance, as appropriate.

Thank you very much!

Please also note that my full-time work schedule includes every other Friday off.
