

February 20, 2014

MEMORANDUM TO: James Flanagan, Director  
Office of Information Systems

Thomas Rich, Director **/RA/**  
Computer Security Office

FROM: Kathy Lyons-Burke **/RA/**  
Senior Information Technology Security  
Officer for Policy, Compliance, and Training  
Computer Security Office

SUBJECT: INTERNET EXPLORER VERSIONS 9 AND  
10 SECURITY CONFIGURATION STANDARDS

The Standards Working Group (SWG) is pleased to present for your signature version 1.0 of CSO-STD-1422, "Microsoft Internet Explorer 9 Configuration Standard" and CSO-STD-1423, "Microsoft Internet Explorer 10 Configuration Standard". These standards provide the minimum requirements that must be applied to NRC computers running Internet Explorer version 9 or 10. The SWG Chair, Bill Dabbs, worked with the SWG members and the Information System Security Officer (ISSO) forum to develop a standard that properly balanced business needs, operational needs, and cyber security.

If found acceptable, please sign your name and date your signature in the approvals section found on the first page of each standard.

Thank you for your consideration and support.

Enclosures:  
As stated
