Subject: RE: Request for Proprietary and Factual Error Review of Nuclear Code Review Input

Joel,

We did a very quick review and we did not have any comments. I am confident that there is no proprietary information in it. Again, my Safety Analysis Engineer had to leave early, if he has any additional comments I will update you via e-mail.

Please call me if you have any questions or need any clarification on anything that we sent you. I will be available all weekend so please do not hesitate to call me at (630)291-7329. If for some reason you cannot get in touch with me, please feel free to call Kevin Borton at (484)883-7561.

Again, we sincerely appreciate the opportunity to comment and all of your effort in considering our comments.

Leslie E. Holden

Subject: Request for Proprietary and Factual Error Review of Nuclear Code Review Input

Leslie,

Here is the Nuclear Code review input for proprietary and factual error review. This was in PDF format so I left it that way, but the pagination is messed up.

Joel
