SUBJECT: Request to Begin Review Prior to NRC Decision on Fee Waiver for TSTF-542,
Revision 0, "Reactor Pressure Vessel Water Inventory Control"

On December 31, 2013, the TSTF submitted a request for a fee waiver pursuant to the provisions of 10 CFR 170.11 for the NRC review fees for TSTF-542, "Reactor Pressure Vessel Water Inventory Control" (NRC Agencywide Documents Access and Management System (ADAMS) Accession Number ML14002A108).

The NRC is still processing the TSTF request. In order to avoid delay in the NRC review of TSTF-542 (NRC ADAMS Accession Number ML14002A112), the TSTF requests that the NRC begin review of the Traveler prior to a decision on the fee waiver request. Should the NRC not grant the fee waiver request, the Boiling Water Reactor Owners' Group should be billed for the review of the Traveler.
