SUBJECT: NRC INSPECTION REPORT NO. 03036832/2012001, BAUSCH & LOMB,
GREENVILLE, SOUTH CAROLINA SITE

Dear Mr. O'Connor:

On February 23, 2012, Randolph Ragland, NRC Region I, performed a security inspection at the above address. During that inspection, one or more security violation(s) were identified. We noted that in response to our finding(s), Bausch & Lomb took immediate corrective actions to address any security related vulnerabilities. The results of that inspection were included in a report that was forwarded to you by letter dated March 9, 2012. In accordance with NRC policy, that report was withheld from public inspection because it contained specific details of your security program. However, it is also NRC policy that when we conduct a security inspection, we will also issue a publicly available letter that documents that an inspection was performed at the licensee's facility. During a review of our records, we noticed that due to an administrative oversight, we did not issue a publicly available letter to you that documented that an NRC inspection was performed at your facility. This letter satisfies our policy requirement.

In accordance with 10 CFR 2.390 of the NRC's "Rules of Practice," a copy of this letter will be made available electronically for public inspection in the NRC Public Document Room or from the NRC document system (ADAMS), accessible from the NRC website at <http://www.nrc.gov/reading-rm/adams.html>.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Regulations, Guidance and Communications**. The current Enforcement Policy is included on the NRC's website at www.nrc.gov; select **About NRC, Organizations & Functions; Office of Enforcement; Enforcement documents**; then **Enforcement Policy (Under 'Related Information')**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.
