**Subject:** RE: NRC/DTE TeleConference Call Participation

Mr. Schonberger:

The Federal Government was closed yesterday due to inclement weather. Therefore the meeting that you mentioned was cancelled. The meeting announcement request that if members of the public would like to participate in a NRC public meeting then they should contact the project manager. There were 4 members of the public who contacted me to let me know that they were interested in participating. And as such, the moment the government closed I contacted those 4 individuals to inform them of the meeting cancellation. In the future, if you wish to participate in any NRC public meetings, please contact the Project manager so that you, too, can be informed of any changes to a scheduled meeting that may not be able to be officially noticed due to closure of the Federal Government.

Once this meeting is rescheduled, I will send you an email with the revised call in number.

Tekia Govan

**Re:**  
Docket No. 52-033-COL  
NRC/DTE COLA Safety Review  
Fermi, Unit 3

Public Meeting -- TeleConference Call  
ADAMS ACCESSION NO. ML14024A112

February 13, 2014

Tekia Govan:

Today, just before 1:00 pm EST, I attempted to participate in the scheduled NRC public TeleConference call referenced above. At least one other person called in as well.

However, there was no indication that the meeting actually happened -- the line was inactive, and nobody from the NRC announced the status of the meeting. Please clarify whether the meeting was cancelled, and, if so, please tell me the rescheduled date/time for the meeting, as well as any change in the telephone number or passcode. (888) 922-9018 -- passcode 61136

.  
By the way, Tekia Govan, if the NRC failed to announce ON THE TELEPHONE CALL the cancellation of the scheduled meeting, then I would say that the NRC poorly handled its communication with the public.

Sincerely,  
David Schonberger
