Office of Nuclear Reactor Regulation

Christopher Cook, Chief
Geosciences and Geotechnical Engineering Branch 2
Division of Site Safety & Environmental Analysis
Office of New Reactors

Scott Elkins, Chief
Reactors Systems Analysis Branch
Division of Systems Analysis
Office of Nuclear Regulatory Research

FROM: Tom Boyce, Chief **/RA/**
Regulatory Guidance and Generic Issues Branch
Division of Engineering
Office of Nuclear Regulatory Research

SUBJECT: UPDATE OF THE GENERIC ISSUE MANAGEMENT CONTROL
SYSTEM REPORT (FY 2014, Q2)

The Office of Nuclear Regulatory Research (RES) requests information on the status of the active Generic Issues (GIs) managed by your branch. This information will be used to develop the Generic Issue Management Control System second quarter report for fiscal year (FY) 2014. The second quarter reporting period extends to February 28, 2014, therefore, updates should address status as of that date and include any necessary changes to the status presented in the FY 2014 first quarter report (ML13353A690). Arthur Cunanan will contact the following staff members, who are responsible for each GI, to make arrangements for obtaining updated information:

John Stang (GI-191 task manager)
William Krotiuk (GI-193 task manager)
Clifford Munson (GI-199 task manager)
Christopher Cook (GI-204 task manager)

CONTACT: Arthur Cunanan, RES/DE
301-251-7457

S. Bailey et al.
