MEMORANDUM TO: Mark A. Satorius
Executive Director for Operations

J. E. Dyer
Chief Financial Officer

FROM: Stephen D. Dingbaum */RA/*
Assistant Inspector General for Audits

SUBJECT: AUDIT OF NRC'S IMPLEMENTATION OF THE FEDERAL
MANAGERS' FINANCIAL INTEGRITY ACT FOR FISCAL YEAR
2013 (OIG-14-A-11)

This report reflects the Office of the Inspector General's assessment of the Nuclear Regulatory Commission's (NRC) fiscal year (FY) 2013 compliance with the Federal Managers' Financial Integrity Act of 1982 (FMFIA). We found that NRC complied with the FMFIA requirements.

BACKGROUND

The FMFIA, enacted on September 8, 1982, requires ongoing evaluations and reports of the adequacy of the systems of internal accounting and administrative control of each executive agency. Further, the FMFIA requires that, each year, the head of each executive agency report to the President and the Congress on their agency's compliance with the FMFIA requirements.

Effective beginning with FY 2006, Office of Management and Budget (OMB) Circular No. A-123, *Management's Responsibility for Internal Control*, revised December 2004, requires agencies to include the annual FMFIA report as part of the Performance and Accountability Report under the heading "Management Assurances." Additionally, this circular requires management to provide a separate assurance statement relating to the effectiveness of internal control over financial reporting.

RESULTS

In the agency's FY 2013 Performance and Accountability Report, the NRC Chairman provided reasonable assurance that internal control over operations, compliance with laws and regulations, and internal control over financial reporting were operating effectively and no material weaknesses were found. The Inspector General concurs with the assurances made and found that NRC complied with the FMFIA requirements.

AGENCY COMMENTS

The Executive Director for Operations and the Chief Financial Officer reviewed the OIG draft report and had no comments.
