Kakivik License Amendment Request revised.pdf

Dear Jackie Cook,

Please find our attached request above for an amendment to our license of 50-27667-01. This amendment is required to order and receive a new source for our Model 773 calibration device. Anything you can do to help us expedite this request would be greatly appreciated, as our calibrator is already below the recommended strength for calibrations. Being without our calibrator for an extended period of time would put an extreme hardship on our company. We only have an opportunity to get a new calibrator source twice a year. The next available time is April 15, 2014. We were hoping to have our license amended by then so we do not have to wait until October 15, 2014 for the next opportunity. Thank you for your consideration.

Sincerely,

Pat

Nuclear Materials Safety

RE: License Amendment 50-27667-01

Dear Ms. Simmons,

We respectfully request an amendment change to our materials license in regards to item 8 B. in order to use 200 millicuries per source and 200 millicuries total instead of 165 millicuries per source and 165 millicuries total. At present, QSA is only loading model 773 calibrators with 200 millicuries of cesium 137 sources. 165 millicuries cesium 137 sources are no longer readily available. Anything that the NRC can do to expedite this request would be greatly appreciated, as our current calibrator source strength is already below the recommended strength. The first opportunity for us to receive a new source for our calibrator is April 15, 2014. If our license is not able to be amended by then the next opportunity is October 15<sup>th</sup>. Not having the option to do in-house calibrations for an extended period of time would put an extreme hardship on our company.

Sincerely,

A handwritten signature in black ink that reads "Patton Pettijohn". The signature is written in a cursive style with a large, prominent "P" at the beginning.

LICENSING AND/OR TECHNICAL REVIEWER

ch

This is to acknowledge the receipt of your:

LETTER and/or  APPLICATION      DATED: 02/21/2014

The initial processing, which included an administrative review, has been performed.

AMENDMENT     TERMINATION     NEW LICENSE     RENEWAL

- There were no administrative omissions identified during our initial review.
- This is to acknowledge receipt of your application for renewal of the material(s) license identified above. Your application is deemed timely filed, and accordingly, the license will not expire until final action has been taken by this office.
- Your application for a new NRC license did not include your taxpayer identification number. Please fill out NRC Form 531, located at the following link:

<http://www.nrc.gov/reading-rm/doc-collections/forms/nrc531.pdf>

Send the completed NRC Form 531, by facsimile, to the following number: (301) 415-5387

A copy of your action has been emailed to our License Fee and Accounts Receivable Branch, in our Headquarters office in Rockville, MD. You will be contacted separately if there is a fee issue involved.

Your application has been assigned the above listed **MAIL CONTROL NUMBER**. When calling to inquire about this action, please refer to this control number. Your application has been forwarded to a technical reviewer. Please note that the technical review, which is normally completed within 180 days for a renewal application (90 days for all other requests), may identify additional omissions or require additional information. If you have any questions concerning the processing of your application, our contact information is listed below:
