Subject: Department of the Army, Request for Additional Information Concerning Financial Assurance, Control 582632

Dear Ms. Teachout,

This is in reference to COL Huff's letter dated November 15, 2013, submitting financial assurance information for Nuclear Regulatory Commission License No. 19-08330-03, Docket 03006931. In order to continue our review, we need the following additional information:

The Certification of Financial Assurance should reflect the license number of curies that you requested your renewal to reflect. Please change the number of curies on the certification to the value requested in your renewal.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office (Address below) and refer to Mail Control No. 582847. If you have technical questions regarding this letter, please call me at (610) 337-5366.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing. Please respond within 30 calendar days from the date of this e-mail..
