Subject: NRC Request for Additional Information (Mail Control Number 582874/582890)

PLEASE CONFIRM RECEIPT OF THIS REQUEST FOR ADDITIONAL INFORMATION BY RETURN EMAIL

Licensee: Molecular Imaging Services, Inc./Henlopen Cardiology, P.A.
License No. 07-30790-01/07-30687-01
Docket No. 03036176/03035855
Control No. 582874/582890

Dear Mr. DiGregorio;

This is in reference to your letter dated December 31, 2013, requesting to add the facilities from Henlopen Cardiology, P.A., and terminating the Henlopen Cardiology, P.A. license. In order to continue our review, we need the following additional information:

1. Please provide a complete description of the transaction (e.g., is this a direct sale of all assets, equipment, and sealed sources?).
2. Please confirm that there are no changes in the organization, location, facilities, equipment, or procedures that relate to the licensed program.
3. Please confirm that all records concerning the safe and effective decommissioning of the facility will be transferred to the transferee or to the NRC, as appropriate. These records include documentation of surveys of ambient radiation levels and fixed/or removable contamination, including methods of sensitivity.
4. If the facility located at 18958 Coastal Highway One, Rehoboth Beach, Delaware, will be controlled by an entity other than yourself, please provide documentation of a clear, contractual agreement concerning access to your location of use for the purpose of decontamination or removal of licensed material from the location of use in the event of disharmony between you and the owner entity. This documentation should consist of signed certification from both parties.

We will continue our review upon receipt of the requested information. You may respond to my attention in writing by letter, email (if letter is scanned into a pdf format), or fax (610-337-5269), referencing mail control numbers 582874/582890. If you have any technical questions regarding this deficiency letter, please call me at (610) 337-5006.

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits, see our toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

In order to continue prompt review of your action, we request that you submit your response to this letter within 30 days.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement is not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you in advance for your help.

Sincerely,
Jan Nguyen
