Paul,

The below email from you is correct. Would you send me an email when the deletions have been completed. I have a condition report action that I need to verify the deletion of the 2 submittals that were sent to the NRC in error. Thank you so much!

Lisa,

I understand that you desire to delete the two records that STP submitted to the NRC on March 4, ID 815 and 821.

With your permission, I will delete ID 815 (ML 14063A159) and ID 821 (ML 14063A553) from the NRC's official recordkeeping system (ADMAS) because STP submitted the records to the NRC in error.

Do you agree that these are the records you desire to delete and do you provide me this permission?

Your return email to me will be saved as an official NRC record to document your permission.

Please give me a call if you would like to discuss.

Paul

I will send you the letter. I just want to be clear that you will fix the records 2012 Annual FFD Report and 2013 Annual FFD Report back to the original submittals and you need nothing further from me? Thank you for your help.

Lisa, unfortunately the records have already been processed.

As for the "data," I can fix that on my end.

As for the "in error" submissions, perhaps a simple letter to the NRC, with a cc' to me, the Region, and Resident Inspector to document the submission error will correct the record. This is not a big deal. You have someone in your licensing dept. you can talk to?

They are already in Public Adams.

We'll need to 'unpublish' an delete.

Tom,

Here is second issue, I need help on.

This second item involves a submission by South Texas Project, docket 50-498/499.

I was wondering where these two records are in the que? Both submitted today Record 1 = ID 815, submission time 1:16:51 pm Record 2 = IC 821, submission time 1:55:53 pm

They submitted them in total error. They would like two records deleted.

With the new auto-pop... are they in already?

Paul
