Dear Sir or Ma'am,

Nabors Completion & Production Services, Co. (NCPS) requests an amendment to their current Specific License (37-30412-01).

NCPS requests that Lewis Cessna be removed as Radiation Safety Officer.

Nabors Completion & Production Services Co. (NCPS) has delegated the responsibilities of Radiation Safety Officer to Dustin L. Jones. He is responsible for managing the Radiation Protection Program; identifying radiation protection problems; initiating, recommending, or providing corrective actions; verifying implementation of corrective actions; stopping unsafe activities; and ensuring compliance with federal regulations. Mr. Jones will be delegated the authority necessary to meet those responsibilities, including prohibiting the use of licensed material by employees who do not meet the necessary requirements and stop work authority where justified to maintain radiation safety. Mr. Jones also has the authority to request amendments to the radioactive materials license.

Mr. Jones has an extensive background in radiation safety and compliance. He has completed the training mandated under NUREG 1556 to meet the requirements of a Radiation Safety Officer. Attached to this email is a copy of Mr. Jones's resume and training certificates.

NCPS requests any correspondence regarding this amendment be set to the contact at the below address. Thank you for your assistance in this matter. Please feel free to contact me if you need any additional information in regards to this amendment request.

Respectfully,

Marty Comini
Director of Wireline
