SUBJECT: LICENSE 08-03075-07 AMENDMENT REQUEST

Dear Mr. Gallagher:

The Howard University Radiation Safety Committee is requesting an amendment to License Number 08-03075-07 to add Olubunmi Kehinde Abayomi, M.D.'s name to the license as an authorized user for 35.400; and Iridium 192 for uses in a High Dose Rate Remote Afterloader Unit. Please note this is a correction to the previous letter sent on December 16, 2013 which included 35.300. At this time we are only requesting for Dr. Abayomi's authorization for 35.400 and Iridium 192.

Thank you for your time and consideration in this matter. Please feel free to contact me directly should you need any additional information.

Sincerely,
