Subject: UNIFORMED SERVICES UNIVERSITY OF THE HEALTH SCIENCES, REQUEST FOR ADDITIONAL INFORMATION CONCERNING APPLICATION FOR RENEWAL OF LICENSE, CONTROL NO. 582632
Date: Tuesday, March 18, 2014 1:24:00 PM

Dear Ms. Teachout,

This is in reference to your letter dated November 15, 2013, requesting for renewal to Nuclear Regulatory Commission License No. 19-08330-03 and Docket Number 030-06931. In order to continue our review, we need the following additional information:

1. Records of our previous inspection indicate that Item 6.A of your current license was in storage awaiting disposal. However, your application lists this item for use of irradiation of material. Please state clearly the status of this item.
2. Please describe your procedures for testing the heat and smoke detectors.
3. Your emergency procedures did not include the procedures for responding to alarms indicating unauthorized entry into the radiation room and your procedures for responding to natural phenomena like tornados and/or flooding. Please describe your procedures for responding to such events.

We will continue our review upon receipt of this information. Please reply to my attention at the Region 1 Office (Address below) and refer to Mail Control No. 582625. If you have technical questions regarding this letter, please call me at (610) 337-5366.

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Please note that you may not reply to this letter by return e-mail. Your reply must be in writing by letter to the address below or by facsimile (610-337-5269). Please reply within 30 calendar days from the date of this e-mail.

Region 1 Office Mailing Address: Licensing Assistance Team, US Nuclear Regulatory Commission Region I, 2100 Renaissance Boulevard, Suite 100, King of Prussia, PA 19406-2713.
