Ms. Nancy Parr, EH&S License Manager  
Westinghouse Electric Co., LLC  
Nuclear Fuel Division  
5801 Bluff Road  
Hopkins, SC 29061-9121

SUBJECT: APPROVAL OF REVISION 17 OF THE SITE EMERGENCY PLAN  
(TECHNICAL ASSIGNMENT CONTROL NUMBER L33301)

Dear Ms. Parr:

In a letter (LTR-SR-13-6) dated December 12, 2013, the Westinghouse Electric Company, LLC, submitted Revision 17 of the Site Emergency Plan (SEP) for review by the U.S. Nuclear Regulatory Commission (NRC) in accordance with Title 10 of the *Code of Federal Regulations* (10 CFR) 70.32(e).

The staff reviewed the changes to the SEP, incorporated by Revision 17, against Regulatory Guide 3.67, Standard Format and Content for Emergency Plans for Fuel Cycle and Materials Facilities. Some changes were made to reflect the use of the National Incident Management System (NIMS) structure, and improve the defined roles and responsibilities for emergency response organizational members. Other changes formatted tables to match documents of the Environmental Protection Agency (EPA) and the State of South Carolina to reflect current chemical inventories. Still other changes clarified details in previous revisions or were editorial. The NRC staff finds that Revision 17 of the SEP meets 10 CFR 70.32(i), whereby a licensee may change an approved plan without prior Commission approval if the changes do not decrease the effectiveness of the plan.

The NRC staff has no further questions at this time. Safety Condition S-2, will be modified to include Revision 17 in Amendment 17 of Special Nuclear Materials license SNM-1107.

This letter both concludes the action on the review of Revision 17 of the SEP and closes the assigned Technical Assignment Control Number L33301.

In accordance with 10 CFR 2.390 of the NRC's "Rule of Practice," a copy of this letter will be available electronically for public inspection in the NRC Public Document Room or from the Publicly Available Records System component of the NRC's Agencywide Documents Access and Management System (ADAMS). ADAMS is accessible from the NRC web site at <http://www.nrc.gov/reading-rm/adams.html> (the Public Electronic Reading Room).

Sincerely,
