2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PA 19406-2713

March 10, 2014

Docket No. 03038439
Control No. 582943

License No. 47-31438-01

Thomas C. Apperson
Vice President
Triton Construction, Inc.
P. O. Box 908
Nitro, WV 25143

SUBJECT: TRITON CONSTRUCTION, INC., LICENSE AMENDMENT, CONTROL
NO. 582943

Dear Mr. Apperson:

This refers to your license amendment request dated January 10, 2014. Enclosed with this letter is the amended license. In addition to your current facility in Nitro, Condition 10 of the amended license includes the new facility as you requested. This will enable you to transfer your licensed material to the new facility. Prior to release of your current facility for unrestricted use, you must request and receive an Amendment removing your current facility from your license. Please include in the request, documentation that demonstrates that the levels of residual activity in the facility are acceptable for release of the facility for unrestricted use. When you submit the Amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We

T. Apperson

2

strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

Thank you for your cooperation.

Sincerely,

Original signed by Sattar Lodhi
