Dr. Peter A. Morris, Director
Division of Reactor Licensing
United States Atomic Energy Commission
Washington, D. C. 20545

Dear Dr. Morris:

RE: DOCKET NOS. 50-361 and 50-362
SAN ONOFRE NUCLEAR GENERATING STATION, UNITS 2 and 3
LEGAL DIVISION FILE NO. 1160

I would respectfully request a further extension of time of 60 days in order to file the comments of the California Public Utilities Commission (C.P.U.C.) on the Environmental Report filed by Southern California Edison Co. (Edison) and San Diego Gas & Electric Co. (San Diego) in the above-mentioned matters.

Hearings on the joint application filed before the C.P.U.C. by Edison and San Diego were held during the month of October, 1970 and to date, no decision has been issued. The future decision on the joint application would contain findings relating to environmental factors and would be the basis of the comments to be filed by the C.P.U.C.

It is respectfully urged that the California Public Utilities Commission be granted this further extension of time until February 22, 1971 in order to file comments on the Environmental Report hereinabove referred to.

Very truly yours,

Elinore C. Morgan
