Subject: Duke Energy Carolinas, LLC (Duke Energy)
William States Lee III Nuclear Station - Docket Nos. 52-018 and 52-019
Update for William States Lee III Nuclear Station Units 1 and 2
Combined License Application
Ltr# WLG2014.03-03

- References: (1) Letter from Christopher Fallon (Duke Energy) to NRC Document Control Desk, *Update for William States Lee III Nuclear Station Units 1 and 2 Combined License Application and Roadmap*, dated May 8, 2013 (ML13144A150)
- (2) Letter from Christopher Fallon (Duke Energy) to NRC Document Control Desk, *AP1000 Combined License Application for the William States Lee III Nuclear Station Units 1 and 2 Departure Report Update*, dated November 6, 2013 (ML13312A062)

This letter provides the Duke Energy updates to the William States Lee III Combined License (COL) application required by 10 CFR 50.71(e)(3)(iii) and 10 CFR Part 52, Appendix D, Subsections X.B.1 and X.B.3.b. This update includes the annual update of the docketed Final Safety Analysis Report and the semi-annual update of the Departures Report (COL application, Part 2 and Part 7, respectively). Additionally, Parts 1, 4, 5, 9, 10 and 11 of the COL application submitted by Duke Energy and accepted by the Nuclear Regulatory Commission (NRC) and updated as provided in the Reference are further updated in this submittal. Revisions to the COL application are identified by change bars positioned in the right hand margin for text and by the revision number for figures.

This update includes changes identified by previous correspondence, including responses to requests for additional information, through March 27, 2014, as well as various other updates such as miscellaneous errata items.

D093
NRD

In addition to the above mentioned changes, Part 1 has been revised to include changes related to corporate officers and cost information through October 25, 2013.

The WLS COL application is comprised of several parts. Each of these is identified below along with indication of any revision contained in this document update.

- Part 1 General and Financial Information (Revision 8, included)
- Part 2 Final Safety Analysis Report (Revision 8, included)
- Part 3 Environmental Report (Revision 1, March 30, 2009, not included in this update)
- Part 4 Technical Specifications (Revision 8, included)
- Part 5 Emergency Planning (Revision 6, included)
- Part 6 [Not used in this application; reserved for applications requesting Limited Work Authorization]
- Part 7 Departures and Exemption Requests (Revision 8, included)
Reference 2 identified two changes to the departures contained in the Lee Nuclear Station Departures Report during the associated reporting period.
- Part 8 Safeguards / Security Plans (Revision 3, April 10, 2013, not included in this update)
- Part 9 Withheld Information (Revision 9, included)
- Part 10 Proposed License Conditions, including Inspections, Tests, Analyses and Acceptance Criteria (ITAAC) (Revision 8, included)
- Part 11 Enclosures (Revision 8, included)

U.S. Nuclear Regulatory Commission

A document identifying each change, as well as its source or basis, is being provided as an aid to the NRC reviewers and will be submitted by separate letter.

This application update contains no Restricted Data or other defense information requiring separation in accordance with 10 CFR 50.33(j). Part 9 of this application update contains the information that Duke Energy is requesting the NRC to withhold from public disclosure in accordance with the requirements of 10 CFR 2.390, including sensitive, unclassified, non-safeguards information (SUNSI). Appropriate affidavits are included with this letter.

A complete set of updated application documents (by Part as identified above) is provided in electronic file format on the enclosed disk (Enclosure 1). Application documents (by Part) that are not updated are not included on the enclosed disk. Appropriate pre-submission checks have been successfully performed on the files for the disk to ensure compliance with the guidelines provided on the NRC web site and they have been found acceptable for electronic submittal. The disk includes a "packing slip" describing its contents, pursuant to NRC instructions for electronic filing.

If you have any questions or need any additional information, please contact Bob Kitchen, Nuclear Development, Licensing Director, at (704) 382 - 4046.

Enclosure:

- 1) Combined License Application Annual Update for William States Lee III Nuclear Station; Parts 1, 2, 4, 5, 7, 9, 10 and 11 (Electronic Submittal 11) (Non-Public).

AFFIDAVIT OF CHRISTOPHER M. FALLON

1. I am Vice President, Nuclear Development, and as such have the responsibility for reviewing the information sought to be withheld from public disclosure in connection with and am authorized to apply for its withholding on behalf of Duke Energy Carolinas, LLC (Duke).
2. I am making this affidavit in conformance with the provisions of 10 CFR 2.390 of the regulations of the Nuclear Regulatory Commission (NRC) and in conjunction with Duke's application for withholding which accompanies this affidavit.
3. I have knowledge of the criteria used by Duke in designating information as sensitive, proprietary, or confidential.
4. Pursuant to the provision of paragraph (a)(4) of 10 CFR 2.390, the following is furnished for consideration by the NRC in determining whether the information sought to be withheld from public disclosure should be withheld.
 - a. The information sought to be withheld from public disclosure is owned by Duke and has been held in confidence by Duke and its consultants.
 - b. The information sought to be protected is not available to the public to the best of our knowledge and belief.
 - c. The information is of the type that would customarily be held in confidence by Duke. This financial information consists of Duke's projection for construction, fuel supply, and operating costs. Public disclosure of this information is likely to cause harm to Duke because it would allow contractors, vendors, and competitors to understand Duke's competitive position and schedule prior to securing the related contracts and services.
 - d. The proprietary information sought to be withheld from public disclosure is identified in Part 9 of the COL application and is marked as proprietary as it appears in the application.
 - e. The information was transmitted to the NRC in confidence and under the provisions of 10 CFR 2.390; it is to be received in confidence by the NRC.

AFFIDAVIT OF CHRISTOPHER M. FALLON

5. Pursuant to the provisions of paragraphs (a)(6) and (a)(9) of 10 CFR 2.390, the following information is furnished for consideration by the NRC in determining whether the information sought to be withheld from public disclosure should be withheld.
- The information is of the type that would customarily be held in confidence by Duke. The COL application contains geological and geophysical information and data, including maps, concerning wells. Some of the data concerning wells also contains associated personal identifiers.
 - The proprietary information sought to be withheld from public disclosure is identified in Part 9 of the COL application and is marked as proprietary as it appears in the application.
 - The information was transmitted to the NRC in confidence and under the provisions of 10 CFR 2.390; it is to be received in confidence by the NRC.
6. Pursuant to the provisions of paragraph (d)(1) of 10 CFR 2.390 and 10 CFR 9.17(a), the following information is furnished for consideration by the NRC in determining whether the information sought to be withheld from public disclosure should be withheld.
- The information is of the type that would customarily be held in confidence by Duke. The COL application contains sensitive, unclassified, non-safeguards physical security information. Public disclosure of this information is likely to cause harm to Duke because it would identify details or features of the plant that could be an aid to a potential adversary. In addition, through the course of developing the COL application in accordance with Regulatory Guide 1.206, "Combined License Application for nuclear Power Plants," Duke has identified certain information that might identify potential vulnerabilities to the critical infrastructure.
 - The proprietary information sought to be withheld from public disclosure is identified in Part 9 of the COL application and is marked as proprietary as it appears in the application.
 - The information was transmitted to the NRC in confidence and under the provisions of 10 CFR 2.390; it is to be received in confidence by the NRC.
