Director, Division of New Reactor Licensing

Project No.0782
MKD/NW-14-0006L

Subject: Proposed Plan for Re-submittal of Application for the APR1400 Standard Design Certification

Reference: 1) Letter, David B. Matthews (NRC) to KHNP, "Korea Hydro and Nuclear Power Co., Ltd., and Korea Electric Power Corporation - Non-Acceptance of the Application for Standard Design Certification of the APR1400" dated December 19, 2013

The purpose of this letter is to inform the NRC that KEPCO and KHNP will re-submit its application for the APR1400 standard design certification with a target date of December 2014.

KHNP looks forward to continued pre-application interactions with the NRC staff in order to receive your feedback and resolve the staff's concerns on the acceptability of the APR1400 design certification application for docketing. We will provide a higher level of detail and technical consistency in the Design Control Document and associated documents to resolve issues raised by staff comments.

For pre-application interactions with the NRC, the point of contact is Yun-ho Kim, Director of KHNP Washington DC Center at yunhokim@khnp.co.kr or 703-388-0592.

Sincerely,

Ha-Hwang Jung
Executive Vice President
Korea Hydro and Nuclear Power Co., Ltd
