

Atomic Safety and Licensing Board
Nuclear Regulatory Commission

August 20, 1979

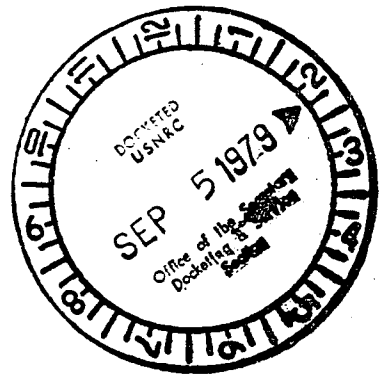

Gentlemen and Ladies of the Board,

While we recognize the great problem Southern California's tremendous energy requirements present to public utilities we are loath to accept the development of nuclear power to meet these needs. We strongly urge the NRC to exercise extreme care in the monitoring of existing facilities and discourage you from allowing further development. In addition we hereby request you allow us our right to speak on the licensing of the San Onofre facility by providing adequate time for public hearings, scheduling hearings in San Diego city, and scheduling hearings in the evenings.

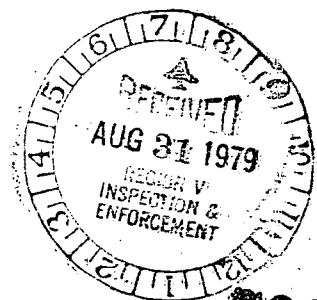

Thank you,

Thomas P Echlin

Dear Commissioner,

Concerning the late 1979 licensing hearings scheduled for San Onofre Nuclear Generating Station 243.

As a 20 year resident of San Diego, I urge you to schedule public hearings in San Diego and that these sessions include night meetings, to enable people who work during the day, like myself, to participate.

Thank you for your consideration.

Re: Docket # 50-361
50-362 OL

Dear Chairperson Coufal:

Regarding the licensing hearings tentatively scheduled for late this year, I would like to urge the following:

That these hearings be held in San Diego City, as the largest population area in San Diego County, where San Onofre is located;

That additional day and especially evening, sessions be scheduled to allow for adequate public input, for people who work during the day to be allowed to testify;

That my name be placed on your list of people to notify of any further information pertaining to these matters.

Looking forward to hearing from you!

Sincerely,
Debi Russell
