

May 12, 2014

Timothy A. Greten
Deputy Director, Technological Hazards Division
FEMA National Preparedness Directorate
Department of Homeland Security
1800 South Bell St.
Arlington, VA 22202

Dear Mr. Greten:

As the Session Chair, thank you for presenting at the U.S. Nuclear Regulatory Commission's 26th Annual Regulatory Information Conference (RIC), held March 11–13, 2014, at the Bethesda North Marriott Hotel and Conference Center in Rockville, Maryland.

Your remarks during the session titled, "Considerations for an Enhanced Safety and Security Defense-in-Depth Strategy During Hostile Action Events," were informative and engaging. You offered another perspective on the topic, which helped to foster a dynamic discussion during the question and answer portion of the session.

This year the number of participants at the RIC reached nearly 3,000, with international representation from approximately 35 countries. Initial feedback received indicates that the RIC was successful in achieving its goal of providing an opportunity for participants to interact with colleagues and to gain and share valuable insights, opinions, and information on nuclear regulatory activities.

Now available at <http://video.nrc.gov/> are the audio and video recordings captured during for the opening session, the Commission plenary sessions, the regional session ("Contemporary Nuclear Power Plant Regulatory Issues") and the special plenary session ("Panel Discussion on Operating and New Reactors: Answers to Your Questions"). Additionally, all questions that were not addressed during the technical sessions as well as final presentations received while on site are currently being compiled and will be posted on the RIC Web site at <http://www.nrc.gov/public-involve/conference-symposia/ric/index.html> in the next few weeks.

We thank you for your contributions, which helped to make the RIC a success, and hope you will join us for the 27th Annual RIC on March 10–12, 2015, at the Marriott Bethesda North Hotel and Conference Center in Rockville, Maryland.

Sincerely,

/RA/

Brian J. McDermott, Deputy Director
Office of Nuclear Security
and Incident Response
