

UNITED STATES
NUCLEAR REGULATORY COMMISSION
REGION I
2100 RENAISSANCE BOULEVARD, SUITE 100
KING OF PRUSSIA, PA 19406-2713

April 7, 2014

Docket No. 03031642
Control No. 583227

License No. 06-28502-01

Ethan Foxman, M.D.
President & CEO
Jefferson Radiology, PC
85 Seymour Street, Suite 200
Hartford, CT 06106

SUBJECT: JEFFERSON RADIOLOGY, PC, LICENSE AMENDMENT, CONTROL NO.
583227

Dear Dr. Foxman:

This refers to your license amendment request dated February 4, 2014. Enclosed with this letter is the amended license adding the two imaging rooms you requested. Please note that prior to releasing your Hartford, CT site for unrestricted use you must receive an amendment removing the facility from your license. Include in the request, NRC Form 314, "Certificate of Disposition of Materials," which can be found at <http://www.nrc.gov/reading-rm/doc-collections/forms/>. Section 11 of NUREG 1556 Vol. 9 Rev 2 may be helpful in preparing your submission. It can be found at the following web link <http://www.nrc.gov/reading-rm/doc-collections/nuregs/staff/sr1556/v9/r2/>. When you submit the amendment request, please refer to the Control Number at the top of this letter.

Please review the enclosed document carefully and be sure that you understand and fully implement all the conditions incorporated into the amended license. If there are any errors or questions, please notify the U.S. Nuclear Regulatory Commission, Region I Office, Licensing Assistance Team, (610) 337-5239, so that we can provide appropriate corrections and answers.

An environmental assessment for this action is not required, since this action is categorically excluded under 10 CFR 51.22(c)(14).

Current NRC regulations and guidance are included on the NRC's website at www.nrc.gov; select **Nuclear Materials; Med, Ind, & Academic Uses**; then **Licensee Toolkits**, see our **toolkit index page**. You may also obtain these documents by contacting the Government Printing Office (GPO) toll-free at 1-866-512-1800. The GPO is open from 8:00 a.m. to 5:30 p.m. EST, Monday through Friday (except Federal holidays).

The NRC's Safety Culture Policy Statement became effective in June 2011. While a policy statement and not a regulation, it sets forth the agency's *expectations* for individuals and organizations to establish and maintain a positive safety culture. You can access the policy statement and supporting material that may benefit your organization on NRC's safety culture Web site at <http://www.nrc.gov/about-nrc/regulatory/enforcement/safety-culture.html>. We strongly encourage you to review this material and adapt it to your particular needs in order to develop and maintain a positive safety culture as you engage in NRC-regulated activities.

E. Foxman
